As an owner of a small business, I was experiencing some team/personnel problems that I was having difficulty resolving. I hired Walter Chase (Fighting Chance) to help resolve the issues; which he did very professionally.

He has a very unique ability to find and understand where problems arise from and helped implement solutions to put the business on a better path. He also recommended a team leader structure that has organized and reduced many of the issues that I had to deal with on a daily basis.

I would recommend Walter Chase as a consultant for any business that needs help resolving internal team problems and strengthening leadership within the business.
