

See It Through Challenge Coin Meaning

Front of coin

Rough Water: Represents the struggle that we must all learn to navigate.

Boat: Represents the vehicle warriors used in their journey into battle. Once the warrior landed ashore, they destroyed their boats. Their mindset was that the only way to get back home was to defeat the enemy and take their boats.

Axe: The common tool used by Viking warriors to build homes and protect their families, but in battle one swing would create the mindset of invincibility for defeating the enemy.

Heart: The heart inside of the axe represents your why, your purpose and the courage it takes to complete the mission.

Handle: The red handle represents the blood and sacrifice from those of the past who fought for our freedom. As a tribute to them are the words "We Did" down the side of the handle.

S.I.T: See It Through- Going from point A to Z and not letting life's circumstances and distractions get in the way.

Back of the coin

See It Through: Words of affirmation and inspiration.

Axes: Symbols of strength and courage

Respect-Educate-Encourage-Perseverance are the four principles of this program. We say see it through and R.E.E.P. the benefits.

Clinched Hands: Represents the bond and comradery that developed through adversity and victory.

Because there are many people who have completed my "See It Through" program who know the poem as well as members of my beloved fraternity, there may be a time when you're wearing a S.I.T. shirt, hat or speaking with someone that a person might walk up to you and say "I see you know about See It through".

Once you respond with yes, they will ask to trade you a verse for a verse. For example: I will trade you the first verse for the third verse. That is an example of the bond displayed by the clinched fist on the coin.

It is my honor to create this token of my appreciation for all who paved the way for each of us. Now it is up to us to be the example for those after us. "Irons Sharpen Irons"
